Re: Presence of Substance(s); ICH Guideline Q3D for Elemental Impurities

Product Name/Number

DYNAFLEX™ G2711-1000-00 / EM1001609610

Dear Valued Customer,

Based on the information provided to Avient Corporation (formerly PolyOne Corporation) by its raw material suppliers and our formulation reviews, the substances listed below have not been intentionally added to this Avient product in their elemental form. However, please see possible catalyst(s) residual(s) note.

- **Class 1:** Arsenic, Cadmium, Mercury, Lead
- **Class 2A:** Cobalt, Nickel, Vanadium
 - *Possible residual(s) from polymer catalyst(s); not tested for.*
- **Class 2B:** Silver, Gold, Iridium, Osmium, Palladium, Platinum, Rhodium, Ruthenium, Selene, Thallium
- **Class 3:** Barium, Chrome, Copper, Lithium, Molybdenum, Antimony, Tin
- **Ph. Eur 5.20:** Iron, Manganese, Zinc

Additionally, Avient does not intentionally add or use these substances in the manufacturing process of this product(s). The absence has not been checked by tests. The investigation on those substances does not belong to our quality and production controls. The fact that the above listings of substances are to all intents and purposes absent from these product(s) does not, of course, absolutely exclude that toxicologically and/or regulatorily irrelevant extremely low trace levels of these substances may be unintentionally present.

This declaration does not waive the responsibility of the user who must check whether the end products are appropriate for the specific intended use.

If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us. Please contact your Avient Corporation Sales Representative should you need additional GLS Thermoplastic Elastomer product support.
